

CNRG Opens Town & Country Farm & Hardware

May 3rd, 2013

Natchez, Mississippi – Central Network Retail Group, LLC (CNRG) opened a new store, Town & Country Farm & Hardware, in Natchez, Mississippi today. The store is located at 199 US Hwy 61 South and is a new format for CNRG. “This new format is something I’ve thought about for a long time,” said Jimmy R. Smith, chairman of CNRG. “It is a different store from our traditional hardware stores with depth in the farm and feeds, hardware, and automotive assortments.” The store has a 12,000 squarefoot sales floor with a large assortment of hardware, feeds, pet and animal health, farm implements, automotive, fencing, electrical, plumbing, tools, lawn & garden, and home organization items. The store is 3 miles south of CNRG’s Home Hardware Center in Natchez. “We are excited about this new concept for our company,” said Boyden Moore, president of CNRG. “This new store gives us the opportunity to reach a customer that we haven’t been able to serve through our other formats.”
